Open Ended Questions (FRQ)

- Q9.** A company made a profit of 145,678. Write the number in expanded and standard form. Show your work and provide your answer in the space below.
- Q10.** A person invests 23,491 in the stock market. Round the amount to the nearest thousand and explain why you rounded up or down. Use the space below for your answer.

Chef's Tips

- Remind students to read each question carefully and pay attention to place value.
- Emphasize that rounding should be done based on the digit immediately to the right of the rounding place.
- Encourage students to use real-life examples, such as money and finance, to illustrate their understanding of place value concepts.
