Homework (Jalapeno)

Open Ended Questions (FRQ)

- Q9.** The ancient library of Alexandria had a collection of 500000 scrolls. If 15% were lost in a fire and 10% of the remaining scrolls were sold to a collector, how many scrolls are left in the library? Show your work and explain your reasoning.
- Q10.** The Great Wall of China was initially built with 3000 laborers. If 20% of the laborers were reassigned to a different project and 5% of the remaining laborers were injured, what percentage of the original labor force remains? Calculate and show your work.

Chef's Tips

- Tip 1: Ensure students understand the context of each question.
- Tip 2: Encourage students to show their work for FRQs.
- Tip 3: Remind students to check their calculations carefully.
