

Unit: 6 Unit 8: Quadratics

Topic: Definition of Quadratics and Standard Form

Name: _____

Date: _____

Homework (Jalapeno)

Open Ended Questions (FRQ)

Q9. Describe the key features of the quadratic function $f(x) = x^2 + 2x - 3$. Be sure to include the vertex, x-intercepts, and y-intercept.

Q10. Write a quadratic equation in standard form that has a vertex at $(1, -2)$ and an x-intercept at $(2, 0)$. Show your work and explain your reasoning.

Chef's Tips

- Provide examples of real-world applications of quadratic equations
- Encourage students to use graphing calculators to visualize quadratic functions
- Emphasize the importance of factoring and solving quadratic equations
