

Unit: 6 Unit 8: Quadratics

Topic: Solving by Quadratic Formula (Discriminant)

Name: _____

Date: _____

Homework (Carolina Reaper)

Open Ended Questions (FRQ)

Q9. A music producer uses the equation $t^2 + 4t + 3 = 0$ to set the tempo of a song. Solve for t and interpret the discriminant. Provide the number and type of solutions.

Q10. Given the quadratic equation $p = 0.01x^2 + 0.2x + 10$, *determinethenumberandtypeofsolutionsforxwhen* $p = 11$. *Usethequadraticform*

Chef's Tips

- Ensure all questions are answered in the space provided.
- Calculators are allowed for this test.
- Follow the instruction for each type of question carefully.
