Q9. In a school, 16

Q10. A bakery is having a sale on bread. A loaf of bread originally costs
2.50
, but it is on sale for 12

Chef’s Tips

- Tip 1: Remind students to convert percentages to decimals by dividing by 100.
- Tip 2: Suggest that students use mental math or estimation to quickly check their answers.
- Tip 3: Encourage students to read the questions carefully and identify the key information needed to solve the problem.
