

Quiz (Carolina Reaper)

Open Ended Questions (FRQ)

Q9. A bakery sells large and small cakes in a ratio of 2 : 3. On a certain day, they sold 18 large cakes. How many small cakes did they sell? Show your work and explain your reasoning.

Q10. A water tank can hold 1200 gallons of water. If 300 gallons of water are already in the tank, what fraction of the tank is filled? What fraction of the tank is empty? Show your work and explain your reasoning.

Chef's Tips

1

- Tip 1: Ensure students use cross multiplication to solve proportions.
- Tip 2: Remind students to simplify ratios when possible.
- Tip 3: Encourage students to use real-world examples to demonstrate understanding of ratios and proportions.
