

Foundation (Jalapeno)

Open Ended Questions (FRQ)

Q9. Find the inverse of the function $f(x) = x^2 + 3x - 2$ and verify it using composition

Q10. A company's profit function is given by $P(x) = 200x - 0.5x^2$, where x is the number of units sold. Find the inverse of this function and interpret it in the context of the problem

Chef's Tips

- Make sure students have access to a calculator
- Allow students to use a formula sheet
- Encourage students to show all work and justify their answers
