

Unit: 6 Unit 8: Quadratics

Topic: Converting Forms (Completing the Square)

Name: _____

Date: _____

Foundation (Jalapeno)

Open Ended Questions (FRQ)

Q9. Complete the square for $x^2 + 7x$ and write the equation in vertex form

Q10. Find the vertex of the parabola $x^2 - 5x - 6$ and write the equation in vertex form

Chef's Tips

- Read each question carefully
- Use the completing the square method to convert to vertex form
- Identify the vertex from the vertex form of the equation
