Open Ended Questions (FRQ)

- Q9.** Perform the long division: $63 \div 5$. Express your result with a remainder.
- Q10.** A company has 240 shares to distribute among its employees. If each employee receives 8 shares, how many employees will receive shares? Show your work and express your result with a remainder.

Chef's Tips

1

- Tip 1: Ensure students understand the concept of divisibility before attempting long division.
- Tip 2: Provide examples of real-world applications of division in business and finance.
- Tip 3: Encourage students to check their work by multiplying the quotient and divisor and adding the remainder.
