Open Ended Questions (FRQ)

Q9. A person is planning a road trip from City A to City B, a distance of 250 miles. If they drive at an average speed of 50 miles per hour, how many hours will it take to complete the trip? Show your work and explain your reasoning.

Q10. A bookstore is having a sale on books, with a discount of 15

Chef's Tips

- Provide clear instructions for each question
- Encourage students to show their work and explain their reasoning
- Allow students to use calculators for calculations
