

Challenge (Habanero)

- Q1.** A gamer's scores in a video game are 12, 15, 18, 20, 15. What is the mode?
(A) 12
(B) 15
(C) 18
(D) 20
(E) None
- Q2.** A coding challenge has the following completion times (in minutes): 25, 30, 28, 32, 30. What is the median time?
(A) 28
(B) 29
(C) 30
(D) 31
(E) 32
- Q3.** The data usage (in GB) for a gaming app is 2.5, 3.2, 2.8, 3.5, 2.5. What is the mean usage?
(A) 2.7
(B) 2.9
(C) 3.1
(D) 3.3
(E) 3.5
- Q4.** A tech company's employee salaries (in thousands) are 50, 60, 70, 80, 50. Which measure of central tendency is most appropriate for this data set?
(A) Mode
(B) Median
(C) Mean
(D) Range
(E) Standard Deviation
- Q5.** The high scores for a game are 1000, 1200, 1100, 1300, 1000.
- If the game is updated, which measure of central tendency would be most affected?
(A) Mode
(B) Median
(C) Mean
(D) Range
(E) Standard Deviation
- Q6.** A set of gaming laptops has the following prices (in dollars): 1000, 1200, 1100, 1300, 1000. Which laptop price is the mode?
(A) 1000
(B) 1100
(C) 1200
(D) 1300
(E) 1400
- Q7.** The download times for a game patch (in seconds) are 15, 20, 18, 22, 20. What is the median download time?
(A) 18
(B) 19
(C) 20
(D) 21
(E) 22
- Q8.** A set of data about CPU usage (in percent) is 25, 30, 28, 32, 30. Which measure of central tendency would best describe the data set?
(A) Mode
(B) Median
(C) Mean
(D) Range
(E) Standard Deviation

Open Ended Questions (FRQ)

- Q9.** A gaming tournament has the following scores: 200, 250, 300, 200, 350. Calculate the mean, median, and mode. Compare these measures of central tendency and explain which one is most appropriate for this data set.
- Q10.** The response times (in milliseconds) for a gaming server are 50, 60, 55, 65, 50. Calculate the mean, median, and mode for this data set. Interpret the results in the context of gaming performance.

Chef's Tips

- Ensure students understand the context of tech and gaming when solving problems.
- Emphasize the importance of choosing the correct measure of central tendency for a given data set.
- Remind students to show all calculations and explain their reasoning for free-response questions.
