

Homework (Carolina Reaper)

- Q1.** What is the relative frequency of artists using a 24×36 canvas size who also use the rhythm pattern of $3/4$?
(A) 0.2
(B) 0.3
(C) 0.4
(D) 0.5
(E) 0.6
- Q2.** A two-way table shows the frequency of musicians using different genres and instruments. If 15 musicians use the genre of jazz and the instrument of saxophone, and 8 musicians use the genre of jazz and the instrument of trumpet, what is the total frequency of musicians using the genre of jazz?
(A) 15
(B) 20
(C) 23
(D) 28
(E) 30
- Q3.** The table below shows the frequency of artists using different brush sizes and painting styles. What is the relative frequency of artists using a brush size of 1 inch who also use the painting style of impressionism?
(A) $\frac{1}{5}$
(B) $\frac{1}{4}$
(C) $\frac{1}{3}$
(D) $\frac{2}{5}$
(E) $\frac{3}{5}$
- Q4.** A two-way table shows the frequency of dancers using different dance styles and music genres. If 12 dancers use the dance style of contemporary and the music genre of electronic, and 9 dancers use the dance style of contemporary and the music genre of hip-hop, what is the association between the dance style and the music genre?
(A) Strong positive association
(B) Weak positive association
(C) No association
(D) Weak negative association
(E) Strong negative association
- Q5.** The table below shows the frequency of musicians using different instruments and music genres. What is the total frequency of musicians using the instrument of guitar?
(A) 10
(B) 12
(C) 15
(D) 18
(E) 20
- Q6.** A two-way table shows the frequency of artists using different painting styles and brush sizes. If 8 artists use the painting style of abstract and the brush size of 2 inches, and 12 artists use the painting style of abstract and the brush size of 3 inches, what is the relative frequency of artists using the painting style of abstract who also use the brush size of 2 inches?
(A) $\frac{1}{3}$
(B) $\frac{1}{2}$
(C) $\frac{2}{3}$
(D) $\frac{3}{4}$
(E) $\frac{2}{5}$
- Q7.** The table below shows the frequency of dancers using different dance styles and footwear. What is the association between the dance style and the footwear?
(A) Strong positive association
(B) Weak positive association
(C) No association
(D) Weak negative association
(E) Strong negative association
- Q8.** A two-way table shows the frequency of musicians using different music genres and instruments. If 15 musicians use the music genre of rock and the instrument of guitar, and 12 musicians use the music genre of rock and the instrument of drums, what is the total frequency of musicians using the music genre of rock?
(A) 20
(B) 25
(C) 27
(D) 30
(E) 32

Open Ended Questions (FRQ)

- Q9.** Create a two-way table to show the frequency of 20 artists using different painting styles and canvas sizes. Calculate the relative frequencies and analyze the association between the painting style and the canvas size.
- Q10.** A two-way table shows the frequency of 30 musicians using different music genres and instruments. If 10 musicians use the music genre of jazz and the instrument of saxophone, 8 musicians use the music genre of jazz and the instrument of trumpet, and 12 musicians use the music genre of rock and the instrument of guitar, calculate the total frequency of musicians using the music genre of jazz or the instrument of guitar. Analyze the association between the music genre and the instrument.

Chef's Tips

- Tip 1: Make sure to read the questions carefully and understand what is being asked.
- Tip 2: Use the given tables and data to calculate the required frequencies and associations.
- Tip 3: Analyze the results and draw conclusions based on the data.
