Open Ended Questions (FRQ)

Q9. A car's price increased from 15000
to 18000.
. Find the percent increase in price.

Q10. A shirt's price decreased from 50
to 40.
. Find the percent decrease in price.

Chef's Tips

1

- Calculate the percent increase or decrease for each problem
- Use the formula: percent change = $((\text{new value} - \text{old value}) / \text{old value}) * 100$
- Check your calculations carefully
