Open Ended Questions (FRQ)

Q9. Tom has been hired to paint a fence. He can paint 1 foot of fence in 2 minutes. If the fence is 200 feet long, how many hours will it take him to paint the fence? Show your work and explain your reasoning.

Q10. A water tank is being filled at a rate of 10 gallons per minute. If 5 minutes have passed, what percentage of the 120-gallon tank has been filled? Show your calculations and explain your answer.

Chef's Tips

- Tip 1: Make sure to read questions carefully
- Tip 2: Encourage students to check their work
- Tip 3: Consider using real-life examples to help illustrate concepts
