Open Ended Questions (FRQ)

Q9. In a small town, the ratio of cars to bicycles is 5 : 3. If there are 75 more cars than bicycles, how many bicycles are there in the town? Show all work and explain your reasoning.

Q10. A bakery sells a total of 250 loaves of bread per day. They sell a combination of whole wheat and white bread in a ratio of 3 : 5. If they make a profit of

0.50

per loaf of whole wheat bread and

0.75

per loaf of white bread, what is their total daily profit? Show all calculations and explain your answer.

Chef's Tips

1

- Tip 1: Make sure to read each question carefully and understand what is being asked.
- Tip 2: Use cross-multiplication to solve proportions.
- Tip 3: Check your work and explain your reasoning for free-response questions.
