

Foundation (Jalapeno)

Open Ended Questions (FRQ)

Q9. Graph the function $y = 2f(x - 1) + 1$ if $f(x) = x^2$

Q10. Describe the transformations applied to the function $y = -\frac{1}{2}f(x + 2) - 3$ if $f(x) = x^2 + 1$

Chef's Tips

- Chef's Tips
- Remind students to carefully read each question
- Encourage students to use graph paper for FRQs
