

Unit: Unit 5: Linear Equations

Topic: Point-Slope Form, Slope-Intercept Form, Standard Form and Converting Forms

Name: _____

Date: _____

Advanced (Habanero)

Open Ended Questions (FRQ)

Q9. Graph the equation $y = 2x - 1$ and find its x -intercept.

Q10. Write the equation of a line with slope -2 and y -intercept 3 in standard form.

Chef's Tips

- Tip 1: Use graph paper for questions 9 and 10
- Tip 2: Label the axes on the graph
- Tip 3: Check units and signs carefully
