

Quiz (Carolina Reaper)

Open Ended Questions (FRQ)

Q9. A store sells two types of tickets: adult and child. Adult tickets cost 10 and child tickets cost 5. If the store sells a total of 100 tickets and earns 600, how many adult tickets and child tickets were sold? Show all work and explain your answer.

Q10. A bakery sells a combination of large and small cakes. Large cakes require 3 cups of flour and small cakes require 2 cups of flour. If the bakery has 120 cups of flour available and they make 10 large cakes, how many small cakes can they make? Show all work and explain your answer.

Chef's Tips

- Emphasize the importance of checking units in word problems
- Encourage students to draw diagrams to visualize problems
- Remind students to consider the reasonableness of their answers
